Objective: Motivated Full-Stack Developer skilled in designing, developing, and deploying scalable web applications using modern frameworks such as React, Node.js, Flask, and Django. Seeking to contribute to innovative projects by leveraging expertise in RESTful APIs, cloud technologies (AWS), database management (MySQL, Mongo DB), and agile methodologies while continuously growing as a software engineer.

Education

Malla Reddy University (84.4 %)

BE in Computer Science Engineering

- Core subjects (Until now): DBMS, OS, ML, DSA, DA, OOSE

Sept 2022 - July 2026

Hyderabad, Telangana

C V Raman Junior College (95.7 %)

12th Standard -MPC

June 2020 - July 2022

Wanaparthy, Telangana

Technical Skills

Languages: Python, Java, JavaScript

Web Development: Html, Css, Javascript React Flask Django

Soft skills: Analytical and solution-driven developer with problem-solving, critical thinking, and strong communication skills. Experienced in agile teamwork and adapting effectively in dynamic environments.

Others: MYSQL, Mongo DB, AutoCad, Git, AWS

Projects

Real - Time Chat Application (Nov 2024 - Jan 2025) [Link](#)

- Developed a **real-time multi-user chat system** with **secure authentication** and instant message delivery using Flask and Socket.IO.
- Integrated **SQLite for persistent message storage**, ensuring **100% data retention** and seamless chat history access.
- Optimized **Eventlet concurrency** to manage **100+ simultaneous users** with **low-latency performance (<1s message delay)**.
- **Tech Stack:** Python, Flask, Socket.IO, SQLite, HTML, CSS, JavaScript, Eventlet

Local Store E-Commerce Platform (Mar 2025 - May 2025) [Link](#)

- Developed a **Flask-based e-commerce platform** with product listings, detailed views, and cart management.
- Integrated **Restful APIs and SQLite (SQLAlchemy)** for secure data handling and efficient CRUD operations.
- Implemented **session-based cart with validation and real-time feedback**, ensuring a responsive, user-friendly interface.
- **Tech Stack:** Python, Flask, SQLite (SQLAlchemy), Bootstrap

Work Experience

Amazon Web Services – AIML Virtual Intern | Sep 2023 – Nov 2023

- Developed and deployed ML models using AWS SageMaker, S3, and Recognition, applying cloud-based AI/ML solutions to real-world datasets, improving model accuracy, efficiency, and scalability. Enhanced cloud deployment, data preprocessing, and analytical skills through end-to-end project implementation.

Arithmatrix Technologies – Full Stack Web Developer Intern | Sep 2025 – Oct 2025

- Gained hands-on experience **developing and deploying full-stack applications** using **Flask, Socket.IO, SQL, and frontend frameworks**. Strengthened skills in **real-world software development, agile methodologies, teamwork, and end-to-end application integration**.

Certifications

Programming in Java – IIT Madras

Java Full Stack – Edu Skills

Winner, Hackathon, Malla Reddy University (2023)

Scalable Machine Learning on Big Data using Apache Spark – IBM
